

Between 28 November and 4 December 2009, colonel Ion Roceanu, PhD, director of the Advanced Distributed Learning Department of “Carol I” National Defence University will participate in the annual “World-Wide ADL directors meeting” and in the "Interservice / Industry Training, Simulation & Education Conference” that will take place in Orlando, the United States of America.

On the basis of the successes in the development of the ADL system in the Romanian Armed Forces, through a memorandum signed in January 2009, the Department of Defense of the United States of America through its ADL Program Initiative recognized and accredited “Carol I” National Defence University as a partner laboratory in the ADL network. Thanks to the signing of this document, Romania joins a group of seven such centers at world level, being the third such a center in Europe, and assuming thus the obligation to respect the high standards of performance and quality in the field of distance education and training systems.

At the same time, Romania is invited to participate as exhibitor and display its experience in the ADL initiative stand. This represents a great honor and a sign of recognition at international level of the performances of the Advanced Distributed Learning Department and it is also a unique opportunity to bring to the attention of the 18000 participants the education and research potential of “Carol I” National Defence University.
