

A delegation of teachers from “Carol I” National Defence University will take part between 29 November and 11 December 2009 in the COMMON TRAIL Staff Exercise organized by the Leadership Academy of Hamburg, Germany.

The members of the Romanian delegation will act as observers in this event and will observe the way in which a computer assisted exercise is organized and carried out, the particularities of the activities carried out in a joint command and the applied staff procedures.

The event is part of the very fruitful cooperation between “Carol I” National Defence University and the Leadership Academy of the Bundeswehr, given the common interests in the defence policy and that fact that Romanian and German military personnel take part in multinational forces, making thus necessary a unification of actions and the creation of a similar way of reaction in certain situations.
